PRIZE FOR INTERNATIONALIZATION
Euro Seating was awarded the Prize for Internationalization by the Chamber of Industry and Commerce from Rioja region due to its exporting nature.

EURO SEATING BOUGHT 3 COMPANIES FROM EZCARAY

At the time of industrial decline, Euro Seating took all the workers from three seating and furniture factories from Ezcaray on

SETTING-UP OF BRANCH OFFICE IN MEXICO

Branch office including showroom and warehouse to expand in the American market.

PLASTIC BLOWING EXTRUSION

We incorporated blowing plastic technology for stadium seats. Great success of the ES-500 seat.

D-BOX SYSTEM

Cooperation agreement with the Canadian D-BOX company: we offer our cinema seats with D-BOX system for 4D cinema.

NEW SHOWROOM

Showroom of 850m² where we exhibit a wide range of public seating for all market segments: stadium and arena, cinema, theatre, congress, auditorium, etc.

EURO SEATING Int. S.A., FOUNDATION
August 1994, by Gonzalo Robredo and Juan Carlos Úbeda.

INCORPORATION OF PLASTIC
Watershed: we start manufacturing by means of polypropylene cold injection moulds.

INCORPORATION OF THE SECOND UNIBLOCK® ROTATING MACHINE.
The company continues growing.

ECO SEATS
We launch to the market ECO seats, environmentally-friendly range of seats whose aim is to preserve the natural resources, especially wood.

THE WOOD TECHNOLOGY CENTRE IS SET UP
Unit especially devoted to theatre, congress and auditorium seats. The company continues growing and reinvesting in new product and the company expansion on a permanent basis.

SPORT SEATING
We start installing seats for VIP areas and stadium boxes in sport complexes.

PRIZE FOR INNOVATION
Permanent innovative spirit, key in the company's development.

AUGMENTED REALITY APPLICATION
EURO SEATING surprises with its innovative technology thanks to the incorporation of this application in its catalogues.

NEW INJECTION PLASTIC
New injection plastic plant, where we manufacture 100% of our seating components.

EURO SEATING, PUBLIC SEATING MANUFACTURER

European product, Made in Spain

From the very beginning, when we started manufacturing seats, in 1994, we have always aimed our effort and work at achieving a differentiation from the regular existing solutions available on the market. This has been possible by developing **seats** which combine concepts such as the spectators' confort, the durability in all possible market sectors and situations, and the design, thus contributing to the **beauty and exclusiveness of every project**.

We are currently **leaders in the global market** because of **quality, design, technology, innovation and competitiveness**, being thus present already in more than 120 countries. Since the beginning up to the present day, as well as in the future perspective, Euro Seating has applied and will always apply a clear **exporting and innovative policy**.

CREATING SPACES

Our technical department is at your disposal to find the best solution for your project.

UNIQUE SEATS

We offer a unique wide range of seats due to its quality, design, functionality and innovative nature.

CERTIFIED QUALITY

We manufacture our seats according to the highest quality standards: ISO 9001, 14001 and 14006.

INNOVATION

We constantly reinvest in the creation of new product and business growth. R&D and innovation is always present in our day-to-day work.

Fulfilled Projects

The following makes the difference between us and the competitors:

- Our **production facilities**, more than 40.000 sqm, located in Ezcaray (Rioja region, Spain), where we carry out the **100% of the manufacturing process** of our seats.
- We have our **own technical department and office for Design, R & D and Innovation** to offer the best solution for your project from design to the very end and including all stages: product development, prototyping, layout preparation, technical support, research, moulding development...
- The **replacement of steel components by high-quality and resistant technical plastics** contributes to give special properties to the seats, thus making them stronger than steel.
- We own **more than 100 moulds** and we make more than 80% of the seating components in injected polypropylene because of the great advantages that it offers with regard to other materials.
- 'UNIBLOCK 2®' cold moulded polyurethane foam upholstery system which wraps completely an injected polypropylene internal frame, polyurethane foam and seamless upholstery.
- **Wood technology centre**, focused on the production of wood seats. We have got sound experience at the development of a wide range of seats in top-quality fine wood finishes.
- We manufacture our seats by **strictly respecting the environment in all manufacturing processes**. These production methods imply a strategic added value and a strong commitment for eco-sustainable development.

EURO SEATING is certified by:

- ISO 9001 Quality management systems
- ISO 14001 Environmental management systems
- ISO 14006 Environmental management system. Ecodesign

INNOVATION & DESIGN

EURO SEATING designs and constantly innovates in the **100% of its products**. All technology, means and resources necessary to manufacture its seats are property of EURO SEATING, such as the manufacturing systems, moulds, prototyping, etc.

Thanks to this, Euro Seating is fully qualified to develop **tailor-made projects**, exactly according to every customer needs.

We have a **fantastic team of professionals** who share the company values and who, all of them, contribute by giving the best of themselves and feeling the company as theirs, key element so everything runs smoothly.

At Euro Seating we consider **necessary to reinvest constantly in R & D** and innovation so our seats are always in the forefront of all the market sectors: auditorium and congress, sport projects, theatre, cinema, worship, etc.

MADE IN SPAIN

Our production facilities are located in Ezcaray (La Rioja, Spain), where we manufacture all our seats completely, 100%.

We have more than 40.000 m² equipped with state-of-the-art technology and all necessary technical resources to develop **every type of project from the beginning to the very end**: design and product development, technical solutions, manufacturing, installation and maintenance.

300.000
Seats / Annually

40.000
Square Metres

4
Production Facility Units

We export our products worldwide, 100% **MADE IN SPAIN**, and therefore, we deliver high-quality **EUROPEAN PRODUCT**, in great demand in our sector.

We offer a wide range of unique seats due to its quality, design, functionality and innovative character.

Production capability: 300.000 seats/annually

Our facilities are made up of the following production facility units

- **UNIT 1:** Manufacturing Plant
- **UNIT 2:** Wood Technology Centre
- **UNIT 3:** Showroom
- **UNIT 4:** Injection Plastic Plant

POLYPROPYLENE INJECTION MOULDING

Euro Seating manufactures more than **80% of its components and seats in injected polypropylene** due to its great advantages with regard to other materials.

Plastics are innovative and versatile, being thus pioneers in ecological, social and economic progress.

We decided to manufacture injected seats because of the great **advantages against other materials**:

- **Lighter** weight
- Higher breaking **strength**
- **No rusting**, it does not rot away
- Smooth edges, no sharp edges
- **More manageable** during transport and installation
- Versatility
- **Maintenance-free**, no paint necessary, easy to clean
- **100% recyclable**, environmentally-friendly.
- **Precise** dimensions
- R & D and innovation

Thanks to the fact that we use plastic, we are able to design seats which would not be possible to make if we used other materials.

CONTINUOUS GROWTH

Since its beginnings up to the present day, and with an eye to the future, Euro Seating has always had _and will have_ an innovative and exporting nature.

The first export was made the very first year of the company foundation. **We export to more than 120 countries**, the result of innovative nature, competitiveness and the quality of our seats.

Our **branch office in Mexico** is consolidated and in **continuing expansion** in the American market.

We have a wide **distributors and representatives' network all over the world**, including representative offices and showrooms in Mexico, Germany, Portugal, United Kingdom, Russia, Qatar, Singapore, Saudi Arabia, Canada and Brazil.

CERTIFICATES

ISO 9001 Quality Management Systems Quality Management Systems

ISO 9001 regulation is an international quality management standard based on eight fundamental principles for a **good business management and a better development and activity**. This certificate guarantees that Euro Seating International complies with the high standards applying to quality management systems required by the ISO 9001 regulation.

Advantages of the ISO 9001 regulation:

- It shows the company commitment about quality and the customer's satisfaction
- To make sure that all products and services made/provided according to this rule comply both with the customer's requirements and with the applicable law
- It allows to measure the progress towards the permanent improvement of the company's performance
- To help the improvement of the firm's performance

ISO 14001 Environmental Management Systems

ISO 14001 regulation belongs to a group of environmental management international standards applicable to every possible company. Based on the cycle **Plan – Make – Check – Act**, the ISO 14001 regulation includes the most important requirements to identify and control the environmental aspects of every company.

- To show commitment to customers, investors, consumers and the community
- Enhancement of the expenditure control by means of the reduction of waste and the optimization of energy consumption
- To reduce the insurance premiums by decreasing incidences
- To make easier to obtain permissions and approvals
- To improve the rating to access tenders and public subsidies

Environmental Management of the design and development process, Ecodesign ISO 14006

AENOR'S Ecodesign certificate proves that Euro Seating applies a **management system to identify, control and improve the environmental aspects** of its products and/or services in a continuous way, thus providing its customers with information about the products which have been environmentally improved by means of design.

Competitive advantages:

- Warranty that the company complies with the applicable environmental laws.
- Warranty that the organization manages the design and development of its products and/or services.
- Expenditure decrease (materials consumption, packaging enhancement, etc.)

Customers benefits:

- Product innovation and consequently, market differentiation.
- Compliance with the customer needs and expectations.
- Enhancement of the product image and the company itself.

ENVIRONMENTALLY FRIENDLY

Our location, in the very heart of the Oja Valley (Ezcaray, La Rioja region, Spain), makes Euro Seating a **company committed to the preservation of the environment**.

EURO SEATING manufactures its seats by **respecting the environment** in all production processes rigorously. These production methods imply a strategic added value and a firm commitment to **eco-sustainable development**. This philosophy, together with the company's innovative nature, has issued in **materials totally recyclable**.

SUSTAINABLE

INNOVATION

RECYCLABLE

Our **Eco-designed range** must also be highlighted, an environmentally-friendly range of seats whose aim is to preserve the natural resources, especially wood, one of the noblest materials which surround us and that shows the importance of respecting and preserving nature.

The future and sustainable economic development depend on the **rational use** and maintenance that we apply to our **natural resources**. This firm conviction led EURO SEATING to implement quality systems included in the Certificates ISO 14001:2004 and ISO 14006 of Environment.

WE PROTECT THE ENVIRONMENT

The use of environmentally friendly systems throughout the life cycle of the seats makes their later **recycling** possible.

Recycled plastic can be used to make other elements, as diverse as the next ones: bin bags, clothes hangers, sign panels, shoes, switch frames, pipes, road signals, floor tiles, street furniture, etc.

REDUCTION OF ENVIRONMENTAL IMPACT

We believe in sustainable development and the protection of the natural environment, so we try to reduce the negative impact which could be derived from our activity. We bear very much in mind **the reduction of the environmental impact when we design our seats**, a challenge where plastic plays a key role.

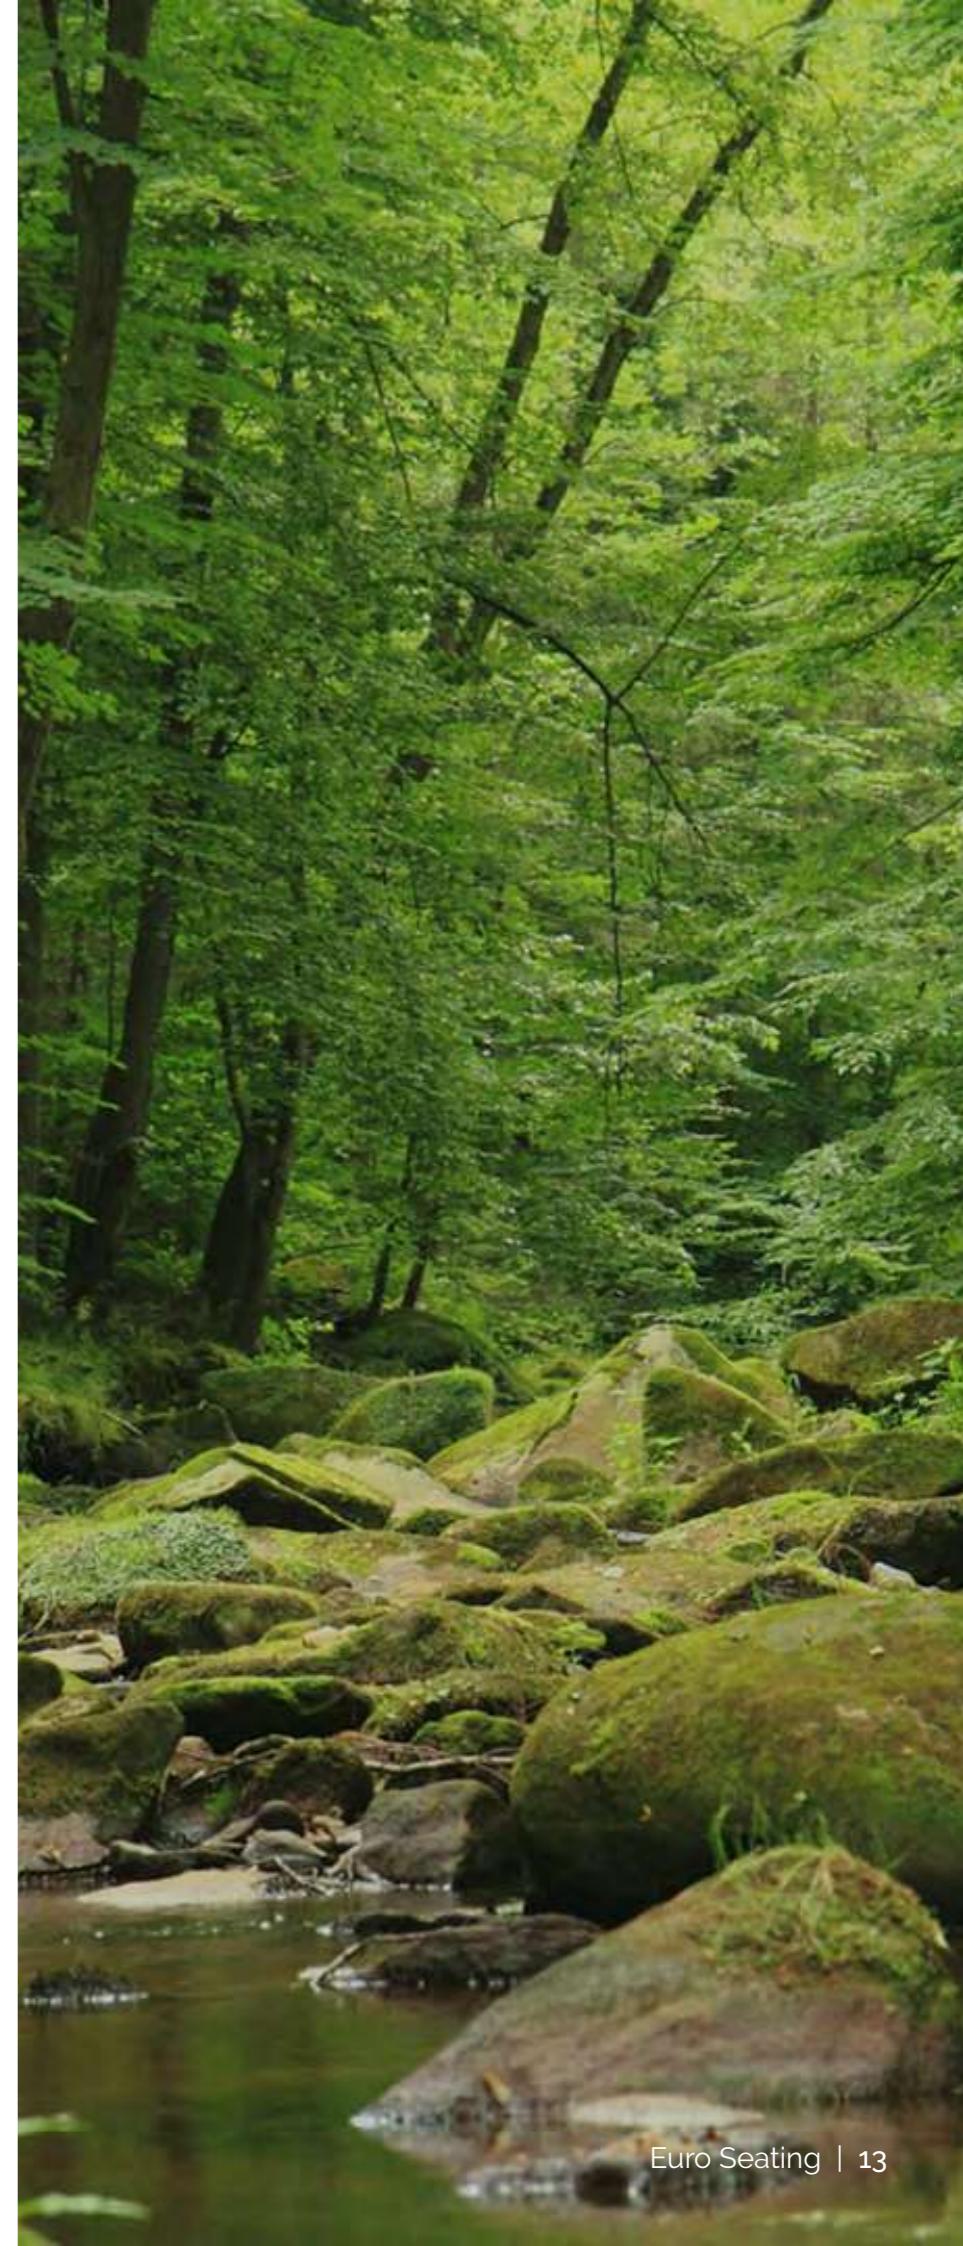

Plastic is present in most of our seats, thus incorporating technological breakthroughs and so, improving the quality of life and ensuring the effective use of natural resources.

SUSTAINABLE DEVELOPMENT SUSTAINABLE FOREST MANAGEMENT POLICIES

Euro Seating is committed to the protection of the environment and therefore, **the forest products we use come from sustainably managed forests**.

PEFC and FSC are forest certified systems which aim at ensuring forests from all over the world to fulfil the social, environmental and economic rights and needs of present generations without jeopardizing the ones from future generations.

There are currently more than 450 million hectares of certified forests. These certification labels guarantee that this vast forest surface is being sustainably managed from an environmental, social and economic point of view.

ECO seat by EURO SEATING constitutes a seating range **environmentally friendly** following the ecodesign criteria complying with UNE-EN ISO 14006 Environmental management of design and development. The future and sustainable economic development depend on the rational use and maintenance that we apply to our natural resources.

EURO SEATING manufactures its seats by respecting the environment in all production processes rigorously. These production methods imply a strategic added value and a firm **commitment to eco-sustainable development**. This philosophy, together with the company's **innovative nature**, has issued in **materials totally recyclable**.

We have created an **exceptional seat with many more advantages** in terms of structure, look and versatility of design.

ECO SEAT es:

- Is **innovation due to the technology applied, cutting-edge materials and a design inspired in nature**.
- Is **committed to the environment**. This is an alternative product for all those ones who appreciate the use of natural resources.
- Our seat is **totally recyclable**: both its internal structure (foam and internal frame) and its external structure (side panels, armrests and shells of seat pan and backrest).
- Has been created by thinking of the future and the possibility to **reuse the component parts of the seats** when making hall refurbishments.

What is the meaning of Ecodesign?

To ecodesign is to **identify**, when a product/service is planned, all the **environmental impacts** that it can produce in each of the stages of its life cycle, in order to try to **reduce them** to the minimum, **without having an adverse effect on quality** and the product's applications.

We have created an **exceptional seat with many more advantages** in terms of structure, look and versatility of design.

OWN CUTTING-EDGE STYLE. GROUND-BREAKING AESTHETICS

The COLORS range conveys an outstanding avant-garde style through a ground-breaking aesthetics, **daring colours and textures and a striking creativity which gets all your attention**, even the attention of the most demanding ones.

The aesthetics of the COLORS seats captivates anyone who gazes at them by means of a pleasant synesthesia which **merges colour shades and textures, unexpected, enjoyable, smart and harmonious combinations**.

COLORS SEAT:

- Decorative combinations by means of **quality materials and great design**.
- We turn a concept into a depiction of forms, lines and colours.
- Highlights the innovative nature and full flexibility that EURO SEATING offers, thus making possible the creation of a seat showing its **own and surprising personality** and which completely **adapts to the customer's requirements**, paying attention to every small detail.
- Perceived by our senses, interpreted by our mind.

The play in the decoration between seats and halls is a real challenge. **The spectrum of shades of the seats opens up new possibilities** that undoubtedly surprise the spectator. In any possible setting, the unchanging thing will always be the **quality of the design and the materials** of each seat.

Our **COLORS-INTENSE** line is a tribute to those who are not afraid of creativity. They are seats based on provocative combinations of colours. They are a reward for the idea and also for the coherence of our designers.

Micra seat **adapts to every possible space** and project features, especially places with limited space and which might require **movable solutions**.

Movable seats

Seat fixed to a practical steel structure which allows the seat to be movable. This steel structure incorporates a non-skid material to ensure the tightest security. Available to be applied individually or in groups of seats.

Retractable seating

The perfect solution for **multipurpose halls** which combine sports activities and leisure events. Micra and Micra TEK seats suit all types of projects involving retractable seating. Euro Seating offers both seats for telescopic tribunes and tailor-made solutions for telescopic structures, motorized or manually operated. According to the project needs, Micra seat adapts to the project in all its possible versions.

Flexing System

Comfortable and practical folding seating system, ideal for retractable seating solutions. The Micra flexing system consists of the **complete folding of the seat frontwards**, so the seat remains completely folded over the row space in the bleachers, thus needing just a minimum space. This fantastic system is available both for manual and automatic folding.

RAILING SYSTEM

Simple seating system which leads the seats on rails to make the most of every space. Euro Seating's **railing system makes the movement of groups of seats possible, thus keeping key areas in multipurpose halls, spaces near the stage, etc.** clear to make the most of the existing space.

Spirolift System

This innovative and sophisticated system makes it possible to **keep the seats under the floor** by means of a complete automatic U-turn, so the seats remain in a 180° position with regard to their initial position when they are ready for the spectators' use. This advantageous system makes it possible to **take the most of the existing space** in a convenient and practical way.

Enjoy the latest technology for cinema seats: motion seats to live the film in a unique and surprising experience. You will not remain indifferent.

DISCOVER OUR SEATS WITH D-BOX SYSTEM

D-BOX has revolutionized the way people watch movies by delivering an unparalleled in-theatre experience. D-BOX is a **motion system integrated** in special seats **synchronized with the image and sound** of the film by means of a special frequency band. This technology plunges the spectator directly into the film, turning him into part of the action.

The exclusive seats with D-BOX system offered by Euro Seating allow the spectator to **enjoy the film in a unique and different way** from the rest of seats not offering D-BOX technology.

The D-BOX experience is linked to maximum comfort seats located in the first rows, so the spectator has a privileged view to the screen

TAKE THE CONTROLS for a unique experience

Our seats with D-BOX system also have a control to allow **the very spectator adjust the movement intensity**, which is always smooth but effective, so the spectator enjoys a permanent enhanced sensory experience, without distracting him from the film action. These movements make the spectator to move forwards and backwards, sideways, upwards and downwards. This is why D-BOX boosts special effects such as IMAX, 3D, etc., thus achieving a unique experience which combines motion and emotion.

SHOWROOM EURO SEATING

Discover the wide range of seats that we manufacture displayed at our amazing showroom, including seating sections such as cinema, theatre and auditorium, congress halls, movable solutions, stadium and arena...

CINEMA SEATS

Come round to know our fantastic cinema seating collection for all possible cinema projects: small cinema halls, multiplex, luxury cinemas, home cinema, VIP halls... We offer a **large standard and customized seating range** according to the customer needs, besides many possible optional elements, such as cupholder, tip-up armrest, headrest, special dimensions for superior comfort...

THEATRE AND AUDITORIUM

You'll be captivated by our **smart seating** range for theatre and auditorium, where wood is one of the key elements. You will find **classical seats** for traditional and conservative projects, as well as **seats showing a modern and fresher look**, always keeping elegance and a particular own style which determines the personality of every project.

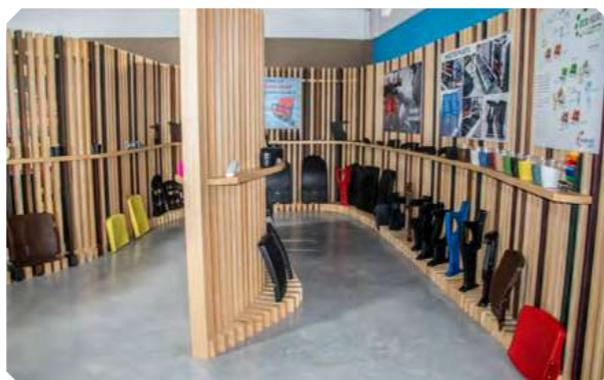

MOVABLE SOLUTIONS

We also have a section for movable solutions, where you'll have the chance to get to know the seats and systems we offer for this kind of projects: **telescopic tribunes, railing system**, our Micra Flexing seat, hide-out system, spirallift system...

MANUFACTURING AND TECHNOLOGY

Learn more about our **manufacturing processes** and the **unique technology** that we apply, the innovative materials we use, the countless variety of possible finishes and combinations, etc.

SPORT SEATS

Get to know our amazing **stadium**, where you'll find **all** our **seats for sport facilities**: tribunes and stands, players' benches, boxes and VIP areas.

CONGRESS HALLS AND AUDITORIUM

Don't miss out our seats for congress, auditorium, lecture halls, cultural centres, amphitheatre... **Versatile seats** with multiple possibilities which adapt to all project needs, such as writing-pad, foldable desk, integration of electrical devices, etc. Available both in **noble wood finish** and in **high-quality injected polypropylene**.

ECO SEAT

Our ECO seats will get you **immersed in the nature** that has inspired our ECO seating range. This is an **environmentally-friendly seating range** whose aim is to preserve the natural resources, especially wood. ECO seats are designed according to ISO 14006 Standard, Ecodesign. We at Euro Seating are committed to the respect for the environment.

LUXURY SEATS

You'll be impressed by our Luxury seats: **exclusive and stylish seats** in leather, the preferred option for privileged spaces. These top-design seats offer a luxury and appealing look thanks to the **exceptional quality of their materials**. Superior comfort and ergonomics, the perfect combination performed in Euro Seating's luxury seats.

INJECTION PLASTIC PLANT

Euro Seating manufactures **more than 80% of its components and seats in injected polypropylene** due to its great advantages with regard to other materials.

Plastics are innovative and versatile, being thus **pioneers in ecological, social and economic progress**.

The replacement of steel components by high-quality and resistant technical plastics contributes to give special properties to the seats, thus making them stronger than steel.

**RESISTANCE
2500 KG**

WOOD TECHNOLOGY CENTRE

One of our production centres is entirely dedicated to manufacture wood seats for auditorium, theatre, congress halls...

Thanks to automatization, CNC and robotics in the wood seating market, we are able to offer the right solution to do a wide range of tasks at the highest quality and accuracy.

UNIBLOCK SISTEM

"UNIBLOCK 2 ®" cold moulded polyurethane foam upholstery system which wraps completely an injected polypropylene internal frame, polyurethane foam and seamless upholstery.

The exclusive Uniblock I and Uniblock II upholstery systems contribute to the product by means of a **longer life cycle and more possible finish options**.
